*S Based in Michigan

Since 1865, the Maryland State Education Association and its local unions have been representing our state’s public school employees and advocating for Maryland's public school students. MSEA membership gives us the voice and influence we don’t have alone. **Together we have won more funding for our students** and fought for better salaries, benefits, and working conditions. Together we will keep fighting for great public schools for every child in every neighborhood.

We can't let out-of-state extremist groups like the Mackinac Center from Michigan attack our union. **They’re desperate to take our voice**, lower our pay, reduce our healthcare, and take away our retirement. It’s already happened in other states they’ve targeted.

**We have to fight back so it doesn’t happen here.**
The Mackinac Center’s Agenda: Destroy Unions, Limit Educators’ Voice, Rights, and Pay

“Our goal is outlaw collective bargaining in Michigan, which in practical terms means no more MEA [Michigan Education Association].”

—JACK MCHUGH
Mackinac Center Senior Policy Analyst, as quoted in Mother Jones, January/February 2014

“Like the Kochs, the DeVoses are generous supporters of think tanks...that rail against unions and back privatizing public services, like the Mackinac Center.”

WE MUST STAND TOGETHER — WE MUST FIGHT BACK

The Mackinac Center is funded by billionaires with extreme political goals, including Betsy DeVos’ family and the Koch brothers, who “are playing an influential role in the drive to strip public employee unions of their rights to bargain.” (Reuters, 2/26/2011).

Don’t be fooled. MSEA members are powerful advocates for what students need to be successful—qualified school staff, increased funding, and a strong voice for educators. The Mackinac Center and its billionaire backers oppose these things and are motivated by what’s best for their bottom lines and extreme political ideology, not what’s best for local educators or students.
